MUZRAI DEPARTMENT.

NOTE FOR ORDERS.

Subject :— Amee Melkote Chattram

There are two questions in connection with this Chattram — one about reconstruction and the other about the revival of feeding Hunsur.

Firstly, About its re-construction :—

In April 1891 the Deputy Commissioner of the Mysore District submitted for sanction an Estimate amounting to Rs 608-11— for repairing this Amee Chattram

but the Government, in their

Res no 37-8/4 dated 14th June 1892,

observed that as the Chatterpur

had no savings at its credit

and as the building was

in a dilapidated condition,

its reconstruction on a suitable

site was absolutely necessary

and it was to accumulate

the required amount of funds

directed the ~~stopping~~ of sending

the Chatterpur from the 1st

July 1892 for such period

as was required to make up

sufficient funds for the

construction thereof and also

revive the sending temporarily

works during the Vizagapatam

& Samalcotta was

also

also accorded to the utilization of 2 months' feeding allowance towards temporary feeding during the Vijayanadi festival.

2 Correspondence is going on between this office and the Dy Commr, Mysore District, regarding the amount of the accumulated Savings of the Chattram since the stoppage of feeding therein and the selection of a suitable site for its reconstruction. but, nothing has yet been decided.

3 In April 1901, two

were prepared by Mr. Swaya-
the D.P.W. Supervisor,
-Narayana Rao, under
personal instructions of the
late Mysore Superintendent-
into a Chattram
one for converting the existing
"Rama Teertha Gotti"
at an estimated cost of Rs 4872,
near the Kalyani, and the
other for constructing a
new building for Chattram
purposes opposite the "Ramada
at a cost of Rs 6326.
Kotti garden". These plans
and Estimates were forwarded
by me to the Dy Commr for
his opinion in the matter,
and he was also requested
submit a bill for the
lapsed Taxdick, in view to

its being re-granted to
meet the cost of the proposed
construction of the Chattram.

+ In reply, the Dy Commr
in his letter no 181 dated
16th January 1902 (which
is pending disposal) states
that he is in favour of
converting the existing
"Nawab Ghulam Sobhi" near
the Kalyani into a Chattram
as it would be not only
cheaper but also afford
larger accommodation
amidst healthier surroundings
and at the same time
remove the unpleasant
proximity of the Burning

Narasa Iyerthan Lotti".

He has also submitted a bill for Rs 4336-10-6 being the amount of lapsed grant Land of the Chattram since the stoppage of feeding therein.

5 I am of opinion that the question of constituting the Chattram as now proposed by the Dy Commr", may be taken up later on, when the amount of the lapsed Inadik is re-granted. and until further consideration is given to the question of the site on which the new Chattram should be built. In the meanwhile, the feeding be resumed, and submitted in my Inspection

the 11th November 1910

it can be temporarily
conducted in the building
(called [illegible])
in which it is conducted
during the Superintendence.

6 On the Inspection
Notes, the Dewan was pleased
to pass the following orders

" This may be done.
Please submit definite
proposals - The savings
of 6 years must
amount to a fairly
large sum".

The estimated cost
of the proposed Construction
amounts to Rs 4872 as per
Estimate submitted

Dy Commr has the amount of Savings (which has lapsed) comes upto Rs 4 336-10-6. ~~This which may be supplemented by Rs 4 hundred and odd~~ from the State grant of Rs 15000/- as the feeding is proposed to be started at once, as Tuticorin and Madhura pilgrims to Melkote are greatly inconvinienced for food at present.

7. To start feeding immediately, the marginally noted Establishment is required at a cost Rs 13 per mensem. As there are already two Sowcars (one

One Cook 4-
One Sowcharuk. 5-
& One Jadmuli .. 3
13

one Cook on Rs 3 and one Parichaarak on Rs 3) at a total cost of Rs 6 per mensem. An addition of Rs 4 to their present salary as now proposed and the entertainment of a Jamadi on Rs 3 will not be too much when compared with the Establishments in the other Anna Chattrams in the State.

8 The monthly Daalik allotment of this Chattram is Rs 58-11-4. Deducting from this the Establishment charges viz Rs 13 as above

There will be Rs 45-11-0 left-
for feeding charges. This
amount is amply sufficient-
on ordinary occasions
at Malkota.

Orders were accordingly issued for the removal of fending in the Chattrams and the fending work took place since 15th March 1902. The question of the construction of the Chattrams has to be settled now. For this purpose, the lapsed grant- Viz Rs 4336-10-1 as per statement received from the Dy Comm^r will have to be sanctioned first

As regards the site for the proposed Chatham there is still some doubt. I have seen the sites proposed but there are objections to each one of them. There are however, certain open spaces caused by houses having become ruined in the main street behind the temple which I think will suit all purposes, besides improving the appearance of that main street. I have therefore now written to the Dy Commr for his opinion about that site, and will submit a clear memo on the

on receipt of his reply.

Meanwhile, orders are

requested on the question

of Funds referred to above.

Note continued

No orders have been passed sanctioning the sum of Rs 4336-10-1, being the accumulated amount of Jasdik, referred to on page 12 of this Note, which was allowed to lapse, as the Jasdik was not drawn from time to time and credited to the funds of the Chattram at Melkote. Neither has the Deputy Commissioner furnished this office with his opinion regarding the suitability of the vacant sites in the western Main Street behind the temple, for the construction of a new Chattram thereon.

One Ramaswamiengar, son of Mr. Govindaghar, late Amildar, has now come forward stating that he is willing to dispose of his house in Melkote, and enquiring if the Muzrai Department of Govt is willing to take it up. The Deputy Commissioner was thereupon requested to favor Govt with his opinion as to whether the said house might be purchased

re for locating the chattram therein and at what cost.

In reply, the Deputy Commissioner has submitted the report of the Assistant Commissioner Mr B Krishna Rao. In this report, Mr Krishna Rao says that the house in question is situated in the North Car Street at Melkote; it consists of 7 Kanams and is estimated ~~to cost~~ measuring 43 ft by 32½ ft and is estimated to cost Rs 1,055/-, (including the site on which the building stands, as well as the well). He expresses the opinion that the situation of the house and the plan of its construction will very well suit for a public chattram, that it may be purchased for Rs 1050/-, that the building being in an incomplete state, it may be completed, a portion of the ~~f~~ house behind it may be acquired and converted into a backyard at an additional cost of Rs 1000/-, and that a portion of the vacant site to the west of the Western Main Street may also be acquired at a further cost of Rs 100/-, and converted into a cart stand. The Deputy Commissioner expresses concurrence in the above views.

Muzrai Secretary's Remarks:—

The locality of the house referred to above appears suitable, and, with the alterations and extensions proposed, will very well serve for a Chatrum. If this house is to be purchased money will have to be found, and for this purpose the tasdik of the Chatrum ~~which was granted and~~ dated from May 1892 to March 1902 during which feeding had been discontinued, which was allowed to lapse to the State, may be re-granted to the Institution. The Deputy Commissioner may therefore be requested to report the exact amount of such lapsed tasdik.

Note cont^d

The Deputy Commissioner was accordingly written to to report the exact amount of savings of the Melkote Chattram Tasdik lapsed to the state, in view to enable Govt to find funds for purchasing Garudachar's house at Melkote. In reply, the Deputy Commissioner states that the tasdik of the Chattram being Rs 704-4-0 per annum, the accumulated savings for the 9 years and 10 months (during which feeding had been discontinued) should be Rs 6925-2-0 that information as to the exact amount available has been called for from the Divisional Amildar of French Rocks, and recommended that pending the submission of the report the purchase of the house may be stayed

named below:

1) To re-grant the lapsed ~~Jaadik~~ Jaadik from May 1892 to March 1902 during which feedings had been discontinued the Dy comm: States that such sum amounts to Rs 6925-2-0.

2) To sanction the purchase of the late Mr Saundapham's house at Melkade for locating therein the Govt: Tamil Chattram. The cost of the purchase is Rs 1050/- According to the Comptroller's figures communicated to this Office recently there is a savings of Rs 1529 at the credit of the Chattram

arrears of tasdik, the money will have to be found from some head in the muzrai budget which is not possible this year. If the regrant is sanctioned the amount may be included in the muzrai budget of 09-10. + drawn + credited to the institution.

CSB 7/7/08

I fear the regrant of lapsed tasdiks of the past 10 years is impracticable. The amount of tasdik should have been drawn from year to year + credited to the Chatram funds. The provision of such a large amount in the next year's budget does not appear feasible. The financial department may be consulted

It has been brought to the notice of the Govt that the unexpended portions of the annual Ready money grants assigned to Muzoi Institutions are not, in accordance with the Standing Orders on the subject, drawn and credited to the Surplus Fund of the respective Institution, at the close of the year for which the allowances are due, and that in consequence the Treasury certificates furnished by the Local Muzoi officers in respect of the Savings of Muzoi Institutions do not often tally with the accounts maintained in the Comptroller's office. To remedy this irregularity, the Comptroller to Govt proposes that at the beginning of each official year the full amount of Muzoi Ready money grants provided in the Budget be debited to the State and credited to the Funds of the several Institutions. This proposal is approved and will be brought into force with effect from the current official year

Sir

The Chief Commissioner considers that a fund may be created for repairs of Chuttrums if a few of those which are not much frequented were altogether abolished, crediting also to the fund the proceeds realized by the sale of the buildings if any

2 The cost of servants is in certain instances, more than 50 per cent of the entire allowance for the feeding. These establishments may be revised, and the saving effected thereby may be added to the Fund.

3 The opening of the Railway and of some new roads since constructed necessitates a revision of some of the existing Chuttrums, the old routes being almost entirely abandoned

4 With reference to the foregoing, I am directed to request that you will be good e-

report what Chuttrums may altogether be abolished and if any deduction could be made in the cost of establishments of others, a form of statement for the submission of necessary information being enclosed for adoption.

5. It is hoped that with the funds thus created, the repairs of such of the institutions as it may be most desirable to keep up may be executed without stopping in any case the feeding allowance. In large towns where there are Municipalities, they may reasonably be called upon to contribute to the repairs of Chuttrum buildings.

Has the Hon'ble Board come that the amount certified to by the Treasury officer as being now available at the credit of the Chattram is Rs 153-14-?. This is apparently incorrect.

for, the Chattram building
having fallen into disrepair
So far back as april 1942,
the feeding therein has been
stopped since that period
in view to accumulate sufficient
funds for the repairs of the same.
The allowance fixed for feeding
is Rs 50-12-0 a month or Rs 609

been stopped for the last 7 years
the amount at the credit of the
Chattram should evidently be
much more than what is

Respected Sir.

I beg to forward herewith plan and Estimate with a detailed report for constructing a Muzarai cum Chathram at Male Kotte, prepared on the lines of your personal instruction on the spot. The figures entered in the Report accompanying

the Estimate, are only approximate
as given out by people, during the
of correct detailed figures.

If the work is to be undertaken
during the year, you will be
to send very early orders to put the
collection of materials in hand
at once; for if the Monsoon Rains
set in (by about the 15th June generally
burnt-bricks and burnt-Stone
could not be collected in time.
Consequently the building works
may

may have to drag on - It is also necessary
to buy seasoned wood and have it sawn
to necessary scantlings to be used
for use with doors and windows &c.

If there are no funds to build both
the Chutheran & out houses, the former,
to be constructed on A or the other thinks
Choice, may be taken in hand during
the year, leaving the latter out Houses to
be Constructed next year - with
this object in view two lots ---

are prepared & transmitted. It
be very much for better if some
could be secured for both the Sa
so that they may be constructed
for all for the convenience of

Dated 3rd April 1901

Report to accompany the Estimate for Constructing a Muzavar Anna Chattram at Maleikote, Seemapatam Taluk.

The old Anna Chattram was situated between Varaha Shatra and Pattala Mutta to the East side of Kalyani at Maleikote. This having become very dilapidated, and unsuited for habitation, was demolished, and materials sold about 11 years ago, abolishing the Chattram altogether, with a view of accumulating funds for Constructing a new Chattram.

2. It is stated that the amount allotted to Chattram every year, is Rupees 6.12- out of which about Rs 15- is spent upon oil &c for feeding Expenses &c. thereby leaving a balance of Rs. 4.8- Which seems to have been accumulated &c.

In addition to this a sum of Rs 400 is said to have been realized from ——— the Sale of Materials of the old abandoned Chattram. Thus the Net amount available for the Construction of the Chattram is said to be about Rs 5350.

Note (the figures noted above requires Verification, as they are entered here approximately)

3. Site for Construction of a new Chattram. The Ground, in front of the Samadhi [illegible] to the left side of the Main road leading into the Madhtote Village, had been once selected for the location of the proposed new Anna Chattram, but subsequently it was found out that, that place is specially required for people and carts during festive occasions, more especially during the Pyramuda Jatra.

4. The best place for constructing the proposed Chattram appears to be, to the North side of ——— Kalyani; where the old Palace building called Sankaranatha Choultry, Constructed at a cost of thousands of Rupees, is in a deplorable condition, badly leaking and settled down in it. This building is once in 4 years used as a ——— Kalyanotsava Mantapa of Sri Sankaranatha Swamy

Swamy during Krishnaraja Inda, also as a
Durbar Hall when Maharaja, and other
distinguished personages visit this palace, touching
up the building for the occasion. If the roof of
this building is not made water-tight at a heavy
cost, it is likely that the building will come down
in course of time, gradually settling in bit pieces
to constant leaks all over. To restore this ancient
building, it is afraid, that there are no funds
available in the Mint, or Department. The
proposed Chattram may therefore be built on
top of the Samithonatha Chowry, locating the
kitchen and other out houses on the ground just
behind this, as may be seen from the enclosed
Ground Plan & Sections. This scheme not only
preserves the old building from its further
dilapidation, but adds very much to the appear-
ance of the Palace and the buildings around
it.

5. Again. Construction of the [illegible]
above will not only [illegible]
of the Samithonatha Chowry, but [illegible]
much cheaper than [illegible]

for the foundations, and basement will be necessary as it will be just on the roof of the Arm near the block forming into an upstair in place of the old Pillars which once existed there and dismantled some 15 years ago owing to dilapidation and decay set in, causing the building totally un-inhabitable.

6. The proposed Site was shown to both Mr. A. Sreenivasa Charlu, Municipal Secretary and Mr. K Narasamy Iyer the Revenue Sub Divisional Officer on the 28th March 1901, explaining the advantages of the Chattram being built there. They both after inspection, & Considering the Conveniences, Settled that the proposed Site was by far the best one, well Suited for the purposes of a Chattram with Kalyana on one Side, and a fine topee and a pond on the other Side where carts and cattle may be conveniently sheltered.

7. The upstair on the block of the proposed buildings on top of Ramalingaswamy Choultry is intended for respectable classes of Travellers as also for feeding purposes when there is a heavy rush of travellers; whilst the lower blocks of buildings are intended for ordinary

Ordinary [illegible] and out house.

8 - The upper block as per detailed [illegible] plan [illegible] into [illegible] No. 2944 and the lower block No 1926 [illegible]

9 - The [illegible] building [illegible] to be [illegible] the [illegible] rear, [illegible] to be [illegible] [illegible] the [illegible] [illegible] be made before [illegible]

Sir,

With reference to your letter No. 1208/34-93 of the 12th of May last forwarding for my opinion two alternative plans and estimates for the construction of the Kattaram at Melkote, I have the honor to state that, for reasons given in the accompanying [illegible] and the Sub Division officer's letter No. 184 of the 2nd September 1901 I am in favor of converting the existing Kesthla Kattu into a Kattaram.

(herewith returned)

To the D.P.W Supervisor
Mr. Suryanarayanrao.

As observed by the Sub-Division officer there it will only be cheaper but also afford larger accommodation amidst healthier surroundings, and at the same time renovate and improve the village known as Nawa Mertha Pettai

As directed in para 2 of the letter under reply I beg to submit herewith a bill for Rs 4336-10-6 being the amount of lapsed Saadik of Tr. Chatram for the past 9 years and to request that the amount may be re-granted to meet the cost of the proposed alteration or conversion of the Nawa Mertha Pettai into a Chatram

Sir,

I have the honor to acknowledge the receipt of your O. M. No. 180 of the 20th May last calling for an expression of my opinion in the matter of two alternative plans and estimates, one for converting the existing Nana Chitha Kolle near the Kalyani into a Chattram and another for Construc a building for Chattram purposes opposite Namada Katte garden in Melkote and in reply beg to state that I would prefer the former for reasons explained in [illegible] the enclosed memo by the D. P. W. Supervisor Sri Suryanarayana Row who prepared the estimates and plans. The first-mentioned project is much to commend it as it is

and within the limits of the available funds, but will also afford a larger extent of accommodation amidst healthier surroundings. It serves further to reconcile and improve the existing mamlah called the Nanmathilla Thotta which otherwise would fall into ruin in the course of a few more years.

The Amildar of Seringapatam reports that for the nine years from 1892-93 to 1900-1901 Rupees 4336-10-1 have lapsed to Government as shewn in the bill submitted by him which is filed with the Vernacular proceedings herewith submitted

No. 1188-9—MUZ. F. 34-93, DATED BANGALORE, 7TH FEBRUARY 1902

ORDER THEREON.—As the chattram building at Melkote was in a state of disrepair, the feeding therein was directed to be stopped in 1893, under orders conveyed in Government Proceedings No. 37-8—4 read above, in view to accumulate sufficient funds for its re-construction on a suitable site Since then the daily feeding in the chattram has been entirely stopped except for about a fortnight during the Vanamudi festival every year when it is conducted in a building called "Nammalwar Sannidhi," The Deputy Secretary to Government, in his memo read above, states that the old building has completely come down and that the question of its re-construction may be postponed until further consideration is given to the question of the site on which the new chattram should be built, but urges the revival of feeding in the meanwhile, as Smartha and Madhwa pilgrims resorting to Melkote are reported to be greatly inconvenienced for food at present.

2. Two alternative plans have been received, one for converting into a chattram the existing "Nama Tirtha Totti" near the kalyani, and the other for constructing a new building on a site opposite to "Namadakatte Garden." The Government are of opinion that the question of re-constructing the chattram may be deferred for the present until the question of site is finally decided

3. As the savings effected by the stoppage of daily feeding in the chattiam for nearly eight years must amount to a fairly large sum, sufficient to meet the cost of its re-construction, the Government are of opinion that the revival of the feeding of pilgrims need no longer be postponed, and they accordingly direct that the feeding be started at once, the building known as Nammalwar Sannidhi, referred to above, being used for the purpose Government are also pleased to sanction the marginally noted establishment for the revival of feeding in the chattiam. It is reported that there is already a Smartha Purohaiak on Rs 3. His pay is raised to Rs 5 as per scale now sanctioned The other two hands, *viz*, a Madhwa cook and a jhadmali, should be entertained immediately and the date of their entertainment reported to this office for communication to the Comptroller

Sir,

With reference to Government Proceedings No. 1188-9 Muz: 7 34-93 dated the 7th February 1902 sanctioning the revival of feeding in the Chattrams at Melkote and calling certain information about it, I have the honor to submit herewith French Rocks Sub Division officer's docket No. 79 dated 2nd July 90 together with its enclosures.

2. As regards the keeping of the accounts in the Chattram, the Sub Division officer reports that one meal a day for the temple Brahmins is of a sufficient inducement and therefore suggests that a separate hand on Rs 3 per mensem may be sanctioned. This may be done if agreeable to Government.

In reply to your letter No: 2431 dated 20th November 1907 calling for the submission of my opinion in the matter of purchasing Sri Garuda Chari house at Melkote for locating the Chattram, I have the honor to submit herewith copy of letter No. 812 dated 10th April 1908 received from the Sub Division officer of French Rocks together with its enclosures in original and to state that for reasons stated therein the building may be purchased for Rs 1050/-

I have the honor to be,
Sir,
your most obedient Servant

Deputy Commr
Mysore District.

Enclosure No. En:.

Sir,

Adverting to your Memo No. 224 dated 23/24th November last giving cover to the copy of Mungrai Secretary's letter no. 2431 of the 20th February 1908 (should be 20.11.07) re the purchase of late Sri Ganda Char's house at Melkote for locating the Government Chattram, I have the honor to report that I inspected the house twice minutely. It is situated in the Post office Street that is the North Car Street. It consists of 7 Arkanams measuring 43 feet East to West

32 feet and 6 inches North to South
The floor of the second storey is not-
planked. The building can in its present
state be valued at Rs 705 as per details given
below :-

Door frames 6	75-0-0
with Shutters 3	
without Shutters 3	
Shutters 3 - - - -	30-0-0
Mokaosara 15 - - - -	75-0-0
Posts 2 - - - -	25-0-0
Windows 10 - - -	50-0-0
Beams 48 - - -	250-0-0
Tiles &c - - - - -	200-0-0
Total	705-0-0

Adding to this the cost of the well inside
the house (about Rs 250/-) and the value
of the site which may considering the
locality be fairly estimated at Rs 100/
the total value comes to about Rs 1055/
The building may therefore, if approved o
purchased for Rs 1050/-.

From the copies of the sale deeds (here
with submitted) relating to the house
forwarded by Mr. V. I. Gopalaiengar, Asst
Siff, it was ascertained that two houses
which were on the same site were purchas
by Mr. late Garudachar for Rs 950/-. It is
reported that the old houses were dismar
tled, materials sold and the present
building

building was constructed.

The situation of the house and the plan of its construction will suit very well for a public Chattram. But being in an incomplete state, it may cost about Rs 1000/- to complete the structure and to acquire a portion of a house behind it for a back yard - A portion of the vacant site to the west of the Western main Street will also have to be acquired for a Cart stand. This may probably cost another hundred rupees.

I have the honor to be
Sir,
your most obedient Servant
(Sd) B. Krishnarao.
Sub Division Officer
French Rocks.
